

VILLAGE OF LOMBARD STREET TREE INVENTORY

The Village is divided into 7 management zones or areas (see map).

- The first column (**HOUSE**) is the property address.
- (**ALT_ADDRESS**) is the true address of corner property.
- (**STREET**) is the name of the street.
- (**WI**) if overhead wires are present or not.
- (**TREE**) is the sequential order of trees on a property as the addresses increase.
- (**SPECIES**) is the species name of the tree or *space* for an open planting location.
- (**DBH**) is the diameter of the tree measured at 4.5 feet.
- (**COND_**) is the condition code given to the tree based on its health and appearance (see back of data collection sheet).
- (**VALUE**) is the dollar value of the tree based on its size, species, and condition.
- (**DATE**) is the date when the tree was last trimmed.
- (**T_B**) is the initials of who trimmed the tree.
- (**TIME**) is the time it took (in minutes) to trim the tree.
- (**YR**) is the year when the tree was planted.
- (**REC-SPEC**) is the height of recommended species for any planting spaces.
- (**PROB & REC**) is for any problems, recommendations or additional notes regarding the tree or planting location.
