

## **NOTICE DISEASED ELM SYMPTOMS**

### **ف PRIVATE TREE**

Today, our contractor, Hendricksen the Care of Trees, was directed by the City to enter upon your property to obtain a sample from your elm tree in accordance with our Municipal Code.

We suspect that your elm tree may be infected with Dutch elm disease. In order for us to accurately diagnose this disease, we need a small branch sample from the suspected area on your tree.

If your elm tree is infected with Dutch elm disease, you will receive a written letter from the City, requesting that you remove your diseased elm tree in accordance with our Municipal Code.

### **ف PARKWAY TREE**

Today, our contractor, Hendricksen the Care of Trees, was directed by the City to obtain a sample from your parkway elm.

As a courtesy, we are notifying you of the possibility of the immediate removal of this parkway tree(s).

If the elm tree(s) is infected with Dutch elm disease, the tree will be marked with a small red metal tag, and a notification hanger will be hung on your door handle, followed by our Dutch elm disease letter explaining the procedures that will ensue.

If you have any questions pertaining to this notice, please call (847) 318-5231.
