

TREE TRIMMING

The parkway tree(s) bordering your property are being trimmed by the Village of Skokie.

Trimming is done for the following reasons:

1. To remove hazardous deadwood
2. To eliminate interference with low limbs
3. To clear stop signs, street lights, and buildings
4. To improve overall tree health by reducing the opportunity for insect and disease infestation
5. To maintain the natural shape of the tree
6. To reduce the effects of wind and ice on branch stability
7. To repair storm damaged limbs

The actual trimming will be performed by an outside tree firm contracted by the Village of Skokie.

The pruning of parkway trees is necessary for the continued growth and health of our trees.

If you have any questions, please feel free to call us.
